WORKING TOGETHER FOR INNOVATIVE EDUCATION WITH A CHRISTIAN FOCUS

For over 25 years, the International Campus Vienna, consisting of the Mayflower Christian Academy and the Noah's Ark Kindergarten, has been doing valuable work in the field of education. At the ICV in the south of Vienna, approximately 230 children and young people aged 1 to 14 are currently cared for, supported and taught.

Our educational institution is growing – and with it the opportunity to give children and young people a forward-looking place of learning, security and development. Here, children from over 25 nationalities are offered the ideal conditions for successful learning. It is very important to us to empower young people for life through Christian education.

We are very aware of the impact our educational institutions have on the lives and development of children and young people and the responsibility that this entails, and we are therefore committed to providing the highest quality education.

This quality must remain affordable in the future and therefore requires an excellently trained team and the best infrastructure. However, as a private kindergarten and denominational private school, only part of our expenses are subsidised by the state. The rest is covered financially by kindergarten and school fees and sponsors.

Our stated goal is to achieve full capacity at Mayflower Christian Academy by 2027 and to move into the future on a stable footing. But until then, we still need support to close the resulting financial gaps.

THAT IS WHY WE NEED YOUR DONATION:

AS A DONOR, YOU ARE IN GOOD COMPANY

Almost all private schools and universities require 10-15% additional funding from donors, especially in the early years in order to establish and maintain their educational institutions in the long term. We, too, are dependent on financial donations. With your donation partnership, you will help the ICV bridge the current growth phase until it reaches full capacity with 200 students in 2027/28.
